PROJECTS

Productivity and skill management application

Flutter - Java

 June 2023

- Currently under development

Wordle TIPE project

Python - Machine learning - game and information theory

 Septemeber 2023 - April 2024

A student study on strategies to solve the wordle game

LANGUAGES

French Native 

English Highly proficient 

German Upper intermediate 

Japanese Beginner 

Korean Self-taught basic working knowledge 

A DAY OF MY LIFE

MOST PROUD OF

 connect with others at clubs activities

 helped friends start their business
by explaining technology related skills

EDUCATION

Engineering Student

ENSEEIHT, Toulouse

 Sept 2024 - June 2027

Specialized in Computer Science

C.P.G.E. MP2I-MPI

Lycée Saint-Louis, Paris

 Sept 2022 - June 2024

Preparatory class: Mathematics, Physics, Computer Science

Scientific Baccalaureate obtained with Distinction

Lycée Sainte Marie, Antony

 2022

STRENGTHS

Hard-working Eye for detail

Motivator & Soft Humans Skills

Python C Ocaml Godot Engine

HTML/CSS/JS Java Spring boot

C++ Qt 5 Flutter

Machine learning Cyber security

EXPERIENCE

Observation internship

C.E.A.

 one week in 2018  Saclay

- Learned about nuclear fission, spectroscopy
- Got to understand Work ethic in the research field

Observation internship as an engineer student

searching

 6 weeks in 2025

MY LIFE PHILOSOPHY

"a stone that can't take a beating will never become a statue."
